JUSTIFICATION/FINDINGS:

The Ordinance requires that **all** conditions set forth below shall be found to exist before the Commission may grant a Variance. The applicant shall answer the questions following each statement.

1. Because of special circumstances applicable to subject property including size, shape, topography, location, or surroundings, the strict application of the Zoning Ordinance would deprive subject property of privileges enjoyed by other properties in the vicinity and under identical zone classification. (What special circumstances are applicable to the subject project?)

2. Any variance granted shall be subject to such conditions as will assure that the adjustment thereby authorized shall not constitute a grant of special privilege inconsistent with the limitations upon other properties in the vicinity and zone in which subject property is situated. (Explain why the granting of the request would not be a grant of special privilege.)

3. The granting of the Variance will not be materially detrimental to the public health, safety, convenience or welfare or injurious to property and improvements in the same vicinity and zone in which subject property is situated. (What precautions, if any, will be taken to protect adjacent properties and the surrounding vicinity from possible nuisances created by the granting of the Variance?)
