2020 Streets Maintenance & Rehabilitation Improvements Project Update

El Centro, Ca. March 11, 2021 – The City of El Centro’s 2020 Streets Maintenance & Rehabilitation Improvements Project (“Project”) is completing the last portion of the construction phase.

The Project work will be along 8th Street. From Park Ave. to Oleander Ave. and along Adams Ave. From La Brucherie Ave. to Imperial Ave. There will be no road closures, however traffic will be limited to one lane in each direction. Please anticipate some delays, and plan accordingly.

The Project work is tentatively scheduled from March 15 to April 2.

This Project was designed and competitively bid by the City’s Engineering Division. The Project was awarded to Onyx Paving Co. on August 4, 2020, and work started on October 12, 2020. The Project was temporarily postponed as the City and Caltrans worked together to address work adjacent to each other’s respective right-of-way.

The project has provided maintenance and rehabilitation pavement treatments to help prolong the integrity of 14.2 miles of arterial, collector, and local streets throughout the City of El Centro.

We would like to extend a “thank you” for your patience during this work.

This work is brought to you by #Measured #SB1

If you have any questions regarding this update, please contact the City of El Centro, Engineering Division at 760-337-5182
