El Centro Aquatic Center – Award of Excellence in Facility Design, Class 3

El Centro, CA April 7, 2021 – On March 26, 2021, the City of El Centro was recognized through the California Parks & Recreation Society, for the Excellence in Design of the El Centro Aquatic Center. According to Rebecca Corfman, El Centro Aquatic Center Supervisor, "The CPRS awards program is the highest recognition our City of El Centro can receive." This award recognizes excellence in design of completed aquatic, recreation and/or cultural facilities intended for public use, throughout the state of California.

CPRS Executive Director Stephanie Stephens states, "These agencies represent the finest in initiatives addressing community issues, recreation programming, park planning, facility design, and marketing and communications in California. Park and recreation agencies throughout the state provide families, individuals, and groups access to the serenity and inspiration of nature; spaces and places for play and exercise; opportunities for directed and self-directed recreation; positive alternatives for youth to reduce crime and mischief; and activities that facilitate social connections, human development, therapy, the arts, and lifelong learning."

Community Services Director, Adriana Nava attributed the CPRS Award of Excellence not only to the had working design and engineering team, but also to the entire community who participated in the design of the El Centro Aquatic Center and made it an award-winning facility. "As a community, we are proud of this accomplishment and are grateful for the recognition from the California Parks and Recreation Society." We encourage the community to visit the Aquatic Center this summer and enjoy this award-winning facility!
