FOR IMMEDIATE RELEASE

2018 Overlay & Downtown Parking Lot Improvements & La Brucherie Avenue Widening Improvements Project Update

El Centro, CA. – May 19, 2019– The City of El Centro’s 2018 Street Overlay & Downtown Parking Lot Improvements phase of work, along La Brucherie will be placing asphalt-rubber hot mix along La Brucherie Avenue, north of Adams Avenue, and across the Villa Avenue & Lincoln Avenue intersections, tomorrow May 16. This work will require to close north-south traffic along La Brucherie Avenue from 7AM to 5PM for the material to cool down. This work will allow east – west traffic along Adams during this work.

Traffic going southbound along La Brucherie will have to use alternate routes, such as Bradshaw Avenue; and La Brucherie Avenue traffic trying to go northbound from Adams will have to use alternate routes, such as Imperial Avenue.

This work will be completed in one day, tomorrow, May 16, so to avoid the inconvenience, it is recommended to use alternative routes.

The City of El Centro’s La Brucherie Avenue Widening Improvements Project is currently raising underground manhole & valve covers to the new roadway surface, placing property fencing, installing signal pole foundations, and painting traffic striping along La Brucherie Avenue, from Orange Avenue to Barbara Worth Avenue. The Project is still scheduled to be substantially completed and opened to thru traffic, late Friday, May 17.

Please be cautious and follow all traffic control and detour signage.

Thank you for your continued patience with this major improvement to a much needed thoroughfare.

This portion of work is brought to you by #SB1 #Measured #WeAreElCentro

If you have any questions regarding this update, please contact the City of El Centro, Engineering Division at 760-337-5182.
