

Sylvia Marroquin

I am a lifelong resident of El Centro and service to my community is important to me. As your elected council member I believe I can contribute to decision making that will: care for the health of our community by maintaining a strong hospital system; mitigate economic fall-out due to COVID-19 by assisting businesses with recovery and/or growth efforts; and alleviate homelessness by working with local resource agencies.

I will proactively shape the future of our city by finding solutions to the problems we face today. I am ready to serve you and our city. A vote for me is a vote for honesty, integrity and transparency.
