(coronavirus disease 2019)
General Update

June 15, 2021
Tracking COVID-19 in California

Update for June 15, 2021

As of June 15, California has 3,697,927 confirmed cases of COVID-19, resulting in 62,515 deaths.

CASES
3,697,927 total
628 today
2.3 new cases per 100K

DEATHS
62,515 total
10 today
0.04 new deaths per 100K

TESTS
67,901,400 total
112,248 today
0.7% test positivity

VACCINES ADMINISTERED
39,789,490 total

Updated June 15, 2021, with data from June 14, 2021.

Note: Case rate is based on a 7-day average with a 7-day lag. Rates of deaths is based on a 7-day average with a 21-day lag due to delays in reporting. Test positivity is based on a 7-day average with no lag. Directional change is compared to the prior 7-day period. Data is provided by the California Department of Public Health. The population denominators used for the per 100K rates come from the California Department of Finance’s population projections for 2020.
California’s County Risk Levels

STATEWIDE METRICS
- 1.8 New COVID-19 positive cases per day per 100K
- 0.8% Positivity rate (7-day average)
- 34.6% ICU availability

California reopens as state lifts most COVID-19 restrictions

Thanks to reaching over 40 million vaccinations, California is reopening today and celebrating with $15 million in cash prize drawings. The state has ended capacity limits and relaxed mask rules for vaccinated people.

See what’s changed

Check the Governor’s updates
Beyond the Blueprint

• Beginning today, 6/15/21, all sectors listed in the Blueprint Activities and Business Tiers Chart may return to usual operations (with the limited exceptions noted for Mega Events) based on general public health recommendations.

• Employers subject to the Cal/OSHA COVID-19 Prevention Emergency Temporary Standards (ETS), must follow such standards.
Changes to Emergency Temporary Standards

On Wednesday June 9, 2021 the Occupational Safety and Health Standards Board held a special meeting to hear from the California Department of Public Health on new face covering guidance. The board decided to withdraw revisions to the Emergency Temporary Standards that were previously sent to the Office of Administrative Law in order to update Cal/OSHA's COVID-19 prevention requirements with the latest guidance. The board posted new revisions on June 11 that incorporate the latest public health guidance. The revisions will be considered at the board’s regular meeting on June 17. In the meantime, the protections adopted in November of 2020 will remain in effect. Review the latest information on the revisions in Cal/OSHA's Frequently Asked Questions.
Face Coverings Guidance

- Public Health Orders
  - State: Order of the State Public Health Officer - Beyond Blueprint
  - Imperial County: Local Health Officer Order

- Updated State Face Coverings Guidance
  - Link: Updated Face Covering Guidance
Do fully vaccinated people ever have to wear face coverings?
Fully vaccinated people can resume everyday activities without wearing a mask, except in limited settings required by federal, state or local rules. There are some situations identified by the CDC where face coverings are required for everyone, regardless of vaccination status, including:

- On public transit (airplanes, ships, ferries, trains, subways, buses, taxis, and ride-shares) and in transportation hubs (airport, bus terminal, marina, train station, seaport or other port, subway station, or any other area that provides transportation).
- Indoors in K-12 schools, childcare and other youth settings.
  Note: This may change as updated CDC K-12 schools guidance is forthcoming.
- Healthcare settings (including long-term care facilities).
- State and local correctional facilities and detention centers.
- Homeless shelters, emergency shelters and cooling centers.

In workplaces, employers are subject to the Cal/OSHA COVID-19 Emergency Temporary Standards (ETS) or in some workplaces the Cal/OSHA Aerosol Transmissible Diseases Standard, and should consult those regulations for additional applicable requirements.

When must unvaccinated people wear masks?
In addition to the places listed above where everyone must still wear face coverings, and consistent with CDC guidance, masks are required for unvaccinated individuals in indoor public settings and businesses (for example: live performances, indoor malls, movie theaters, places of worship, indoor mega events, and indoor museums). For additional information, see CDC Recommendations for Safer Activities.
Do "indoor public settings" include local board and commission meetings?
Yes, board and commission meetings are indoor public settings, so unvaccinated individuals are required to wear masks. Like businesses, venue operators and hosts, boards and commissions may choose to:
• Provide information to all patrons, guests and attendees regarding vaccination requirements and allow vaccinated individuals to self-attest that they are in compliance prior to entry.
• Require proof of vaccination.
• Require all patrons to wear masks.

Does anyone need to continue to wear masks outdoors?
In general, people do not need to wear masks when outdoors. However, per CDC recommendations, in areas of substantial to high transmission, people who are not fully vaccinated are encouraged to wear a mask in crowded outdoor settings or during activities that involve sustained close contact with other people who are not fully vaccinated.

Do visitors in healthcare settings, correctional facilities and detention centers also need to wear a mask?
Yes, all persons (vaccinated and unvaccinated) must wear a mask when visiting a healthcare facility, a long-term care facility (like a skilled-nursing facility), a correctional facility or a detention center, consistent with CDC guidance.
How does a business verify someone is vaccinated?
In settings where masks are required only for unvaccinated individuals, businesses, venue operators or hosts may choose to:

• Provide information to all customers, guests and attendees regarding vaccination requirements and allow vaccinated individuals to self-attest that they are in compliance prior to entry.
• Require proof of vaccination.
• Require all patrons to wear masks.

Businesses may deem a customer, guest or attendee to have self-attested to being vaccinated, or to have met an approved masking exemptions, if the business has prominently displayed signage prior to entry explaining the requirements for unvaccinated individuals to wear a mask and the individual enters the business premises without wearing a mask.

How would a business provide information to their customers about mask requirements?
A business may post a sign or placard at the entrance to their business notifying customers of the mask requirements. Additionally, businesses may post such information on their website or at point of ticket sale prior to entry or notify their members of masking requirements.

Can a business require everyone to wear a mask, even those that are already vaccinated?
Yes, businesses have the option of requiring all patrons to wear a mask while in their facility or place of business, instead of verifying the vaccination status of each patron.
Are children age 2 through 11 required to wear masks indoors in K-12 schools and other youth settings?
Yes, since they are currently ineligible for vaccines and are therefore "unvaccinated." This requirement is subject to forthcoming CDC guidance addressing schools and youth.

Will unvaccinated children and youth be required or recommended to wear a mask during recess outdoors if they cannot maintain physical distancing?
In general, unvaccinated children and youth do not need to wear a mask outdoors, even if they cannot maintain physical distancing. However, per CDC recommendations, in areas of substantial to high transmission, people who are not fully vaccinated are encouraged to wear a mask in crowded outdoor settings or during activities that involve sustained close contact (including high-risk contact sports) with other people who are not fully vaccinated.

What is covered under "youth settings"?
"Youth settings" include K-12 schools and child care, and also cover day camps for youth, youth sports and other youth activities, including theater and music performances and band. Updated CDC guidance is forthcoming for youth settings.
Who is exempt from wearing a mask?
The following individuals are exempt from wearing masks at all times:

• Persons younger than two years old. Very young children must not wear a mask because of the risk of suffocation.
• Persons with a medical condition, mental health condition, or disability that prevents wearing a mask. This includes persons with a medical condition for whom wearing a mask could obstruct breathing or who are unconscious, incapacitated, or otherwise unable to remove a mask without assistance.
• Persons who are hearing impaired, or communicating with a person who is hearing impaired, where the ability to see the mouth is essential for communication.
• Persons for whom wearing a mask would create a risk to the person related to their work, as determined by local, state, or federal regulators or workplace safety guidelines.
Guidance for the Use of Masks in California

Effective June 15, 2021

In workplaces, employers are subject to Cal/OSHA COVID-19 Emergency Temporary Standards (ETS) or in some workplaces the Cal/OSHA Aerosol Transmissible Diseases Standards, and should consult those regulations for additional applicable requirements.
Masks are not required for fully vaccinated individuals, except in the following settings where masks are required for everyone, regardless of vaccination status:

- On public transit (examples: airplanes, ships, ferries, trains, subways, buses, taxis, and ride-shares) and in transportation hubs (examples: airport, bus terminal, marina, train station, seaport or other port, subway station, or any other area that provides transportation)

- Indoors in K-12 schools, childcare and other youth settings

- Healthcare settings (including long term care facilities)

- State and local correctional facilities and detention centers

- Homeless shelters, emergency shelters and cooling centers
Masks are required for unvaccinated individuals in indoor public settings and businesses, such as:

- Retail
- Restaurants
- Theaters
- Family Entertainment Centers
- Meetings
- State and local government offices serving the public
In settings where masks are required only for unvaccinated individuals, businesses, venue operators or hosts may choose to:

- Provide information to all patrons, guests and attendees regarding vaccination requirements and allow vaccinated individuals to self-attest that they are in compliance prior to entry
- Implement vaccine verification to determine whether individuals are required to wear a mask
- Require all patrons to wear masks

No person can be prevented from wearing a mask as a condition of participation in an activity or entry into a business.
Exemptions to masks requirements:

The following individuals are exempt from wearing masks at all times:

- Persons younger than two years old. Very young children must not wear a mask because of the risk of suffocation.

- Persons with a medical condition, mental health condition, or disability that prevents wearing a mask. This includes persons with a medical condition for whom wearing a mask could obstruct breathing or who are unconscious, incapacitated, or otherwise unable to remove a mask without assistance.

- Persons who are hearing impaired, or communicating with a person who is hearing impaired, where the ability to see the mouth is essential for communication.

- Persons for whom wearing a mask would create a risk to the person related to their work, as determined by local, state, or federal regulators or workplace safety guidelines.
