The COVID-19 vaccine is here

Now it’s your turn

Safe, free, and effective COVID-19 vaccines are now available to everyone age 16 and up. Let’s end this pandemic. Check for appointments and book your vaccination as soon as you can.

I need help with transportation to a vaccine clinic, or I need a home appointment because I am unable to leave home due to limited mobility or fragile health.

NOTE: Someone will call you to help schedule transportation or home appointment.

Guidance for Use of Face Coverings

1. For fully vaccinated persons, face coverings are not required outdoors except when attending crowded outdoor events, such as live performances, parades, fairs, festivals, sports events, or other similar settings.

2. For unvaccinated persons, face coverings are required outdoors any time physical distancing cannot be maintained, including when attending crowded outdoor events, such as live performances, parades, fairs, festivals, sports events, or other similar settings.

3. In indoor settings outside of one’s home, including public transportation, face coverings continue to be required regardless of vaccination status, except as outlined below.

4. As defined in the CDPH Fully Vaccinated Persons Guidance, fully vaccinated people can*:
   - Visit, without wearing masks or physical distancing, with other fully vaccinated people in indoor or outdoor settings; and
   - Visit, without wearing masks or physical distancing, with unvaccinated people (including children) from a single household who are at low risk for severe COVID-19 disease in indoor and outdoor settings

5. Exemptions

Guidance for Use of Face Coverings

• Statement from California Health and Human Services Secretary Dr. Mark Ghaly on Mask Guidance:

  • May 17, 2021 Featured

“California has made amazing progress in our fight against COVID-19. With more than 34 million vaccines administered, we now have among the lowest case and positivity rates in the nation.

“On June 15, California plans to implement the CDC’s guidelines around masking to allow fully vaccinated Californians to go without a mask in most indoor settings. This four-week period will give Californians time to prepare for this change while we continue our relentless focus on delivering vaccines, particularly in underserved communities.

“We urge all Californians to get vaccinated to ensure that infection and hospitalization rates remain low across the state and that we can all return to the activities we love.

“Until June 15, when California plans to fully reopen the economy, California will keep our existing guidance around masks in place.

“As of May 3, 2021, face coverings are no longer required outdoors except at crowded events, and for unvaccinated people, when physical distancing cannot be maintained.

“In indoor settings outside of one’s home, including public transportation and schools, face coverings continue to be required regardless of vaccination status.”
